# WOLF WALL™ PLANOGRAMS

*Strong Branding | Easy To Set Up | Flexible And Versatile*

The award-winning *WOLF WALL* system reinforces the premium positioning of the LENOX brand by utilizing clean lines, strong color contrast, and a highly visible LENOX logo. This simple, modular system uses three basic interlocking components. Modules can be used on pegboard or slat wall, and layouts can be customized to accommodate obstructions or to create unique configurations.

LENOX offers a wide variety of product Planogram assortments designed to fit any channel of distribution with the ability to customize based on your product mix. Ask your local LENOX sales representative today about how you can customize a *WOLF WALL* Planogram to fit your store needs.

LENOX *Wolf Wall* program won a Best of the Best award from the Electrical Distributor (tED) magazine

# WOLF WALL™ MERCHANDISERS

*Compact Footprint | Flexible Options | Single Product Focus*

LENOX offers smaller WOLF WALL merchandisers for customers who would like to display tools by product line. We've recently introduced many new product lines and have extended our proprietary T2™ technology across the entire reciprocating blade category. All metal, wood and demolition cutting blades now have the revolutionary T2 blade design that delivers up to 100% longer blade life and 25% faster cutting versus the prior generation of LENOX reciprocating blades. This technology was also applied to our new Bi-Metal SPEED SLOT® Hole Saw category. This innovative design offers fast and easy plug ejection and longer life when cutting holes in wood and metal.

# COUNTERTOP MERCHANDISING

Countertop Merchandisers are used to educate the consumer, provide convenient product placement, and promote impulse buys. LENOX offers temporary and semi-permanent displays for distributors looking to sell LENOX products on their counter.

Promotional Merchandising is typically created around a new product launch or yearly promotion. These merchandisers are usually available for a limited time only.
