

GREEN SOLUTIONS FOR SUSTAINABILITY

Product Information & Selection Tool

Markal[®]

LA-CO[®]

ALL-WEATHER[®]

LA-CO INDUSTRIES INC.

SUSTAINABILITY

At LA-CO Industries, Inc. we understand that our customers are concerned about Environmental, Health and Safety issues. That's why we've evaluated all of our products' green attributes and are excited to bring you our Green Solutions for Sustainability product selection, our greenest products across all of our product categories. As we develop and introduce new products we will continue to provide the high quality and performance LA-CO® and Markal® users count on, while minimizing environmental impact and helping to provide a cleaner, safer and healthier work environment.

GREEN SOLUTIONS

What makes a LA-CO Industries product a Green Solution for Sustainability? Because we offer such a unique and wide variety of products, there was no single "green" definition or independent certification that we could obtain. Instead, we define our Green Solution Products as meeting most of the criteria listed below:

HMIS Health Rating- The Hazardous Materials Identification System is a numerical hazard rating developed by the American Coatings Association, assigning each chemical or paint product a health number from 0 to 4. All of LA-CO's green solution products are rated either 0 meaning no significant risk to health, or 1 indicating irritation or minor reversible injury is possible.

No WHIMIS Control Needed- Workplace Hazardous Materials Information System is Canada's national workplace hazard communication standard. Our Green Solutions products are not WHIMIS controlled.

No SARA 313 Filing Requirement- Our Green Solution products do not contain any chemicals that are listed under SARA Title 111, Section 313 (Toxic Release Inventory).

No California Prop 65 Warning- Our Green Solution products contain no chemicals listed by the State of California as known to cause cancer.

NO OSHA Hazards- None of our Green Solution products contain hazardous or toxic substances (as listed by OSHA).

Recycled- We consider recycled to mean material that has been reprocessed or reclaimed by means of a manufacturing process and made into a final product or into a component for incorporation into a product. We include recycled packaging in this category.

Bio-Renewable- Bio-based chemicals are those derived from renewable (non-petroleum) based sources (plants and animals). A product must be comprised of at least 25% biological, renewable agricultural materials to be considered bio-renewable in our Green Solutions program.

Low VOC- While the EPA defines low VOC levels for latex, flat finish and oil based paints, there is no low VOC definition for industrial paint markers. Our Low VOC markers listed in our Green Solutions for Sustainability program include our markers that have significantly lower VOC levels than ordinary industrial markers.

ROHS Compliant- Restriction of Hazardous Substance Directive. The RoHS directive restricts the use of six hazardous materials in the manufacture of various types of electronic and electrical equipment.

1. Lead (Pb)
2. Mercury (Hg)
3. Cadmium (Cd)
4. Hexavalent chromium (Cr6+)
5. Polybrominated biphenyls (PBB)
6. Polybrominated diphenyl ether (PBDE)

CERTIFIED VALVE ACTION®

Nuclear pre-certified liquid paint marker

The Certified Valve Action® is a highly-visible liquid paint marker pre-certified to contain low levels of chlorides, halogens, low melting point metals and sulfur. Each manufactured batch is individually analyzed and certified to meet U.S.A. and International nuclear and military specifications, and is safe for use on stainless steel and other alloy metals where corrosion resistance is a requirement.

23157 -1 Lb.

COOL GEL®

Heat Barrier Spray

Cool Gel® is an innovative spray gel that can be used for any soldering or brazing job to protect surrounding surfaces and components from heat damage. Its' unique gelled formula allows it to stick to surfaces without dripping, and it evaporates within 48 hours which eliminates cleanup. Easier to use than a heat blanket, Cool Gel is like having an insurance policy in your tool bin.

Green Benefits

- ✓ HMIS Health Code of 0
- ✓ Not an OSHA Hazard
- ✓ No SARA 313 Filing Required
- ✓ No CA Prop 65 Warning
- ✓ No WHIMIS Control
- ✓ Low VOC

11509 -1 Quart
11503 -5 Gallon

SLIC-TITE® PASTE

Premium thread sealant paste, with PTFE

Specially formulated with PTFE for added sealing power, Slic-tite® is the premium thread sealant paste. It has been successfully used for decades to seal water, air, steam, natural gas, and more. It removes easily from skin and clothing, so you have less cleanup time when the job is done. Slic-tite® thread sealant works in extremely high pressure systems, and it comes with several approvals so that the job is completed to code.

Green Benefits

- ✓ HMIS Health Code of 1
- ✓ Not an OSHA Hazard
- ✓ No SARA 313 Filing Required
- ✓ Not WHIMIS Controlled

T-O-T®

Economical pipe thread compound paste

This economical pipe thread sealant is great for sealing metal threads on many types of systems with pressures under 500 PSI.

Green Benefits

- ✓ HMIS Health Code of 1
- ✓ Not an OSHA Hazard
- ✓ No SARA 313 Filing Required
- ✓ No WHIMIS Control
- ✓ Low VOC

12219 -1/2 Pint Brush-In-Cap
12208 -5 Lb.

LEAK-TITE® BLUE

Economical thread sealant with PTFE

This blue sealant is excellent for sealing water, air, steam, natural gas, refrigerants, gasoline and ammonia. LEAK-TITE® Blue is also ideal for use on production lines and fabrication shops.

Green Benefits

- ✓ HMIS Health Code of 0
- ✓ Not an OSHA Hazard
- ✓ No SARA 313 Filing Required

HEAT SEAL STIK®

Premixed Epoxy Sealer for use on refrigeration systems

Pinhole leaks and small cracks in refrigeration coils can force a system to be down for days. HEAT-SEAL STIK® was specifically made to seal these small holes so that you can get your system up and running, even if you need to eventually replace the appliance. HEAT-SEAL STIK works with heat - no mixing of epoxy compounds necessary.

Green Benefits

- ✓ HMIS Health Code of 0
- ✓ Not an OSHA Hazard
- ✓ No SARA 313 Filing Required
- ✓ No WHIMIS Control
- ✓ No CA Prop 65 Warning
- ✓ Recycled Cardboard Holder
- ✓ Low VOC

11575 -3/8 Oz. Dozen Display Box

OYLITE-STIK®

Epoxy repair compound for low pressure equipment

For fast temporary repair on small engine leaks, use Oylite-Stik®. It stops oil and gasoline leaks without the need for equipment draining. Use Oylite-Stik on low pressure gas tanks, oil tanks, and more.

Green Benefits

- ✓ HMIS Health Code of 0
- ✓ Not an OSHA Hazard
- ✓ No SARA 313 Filing Required
- ✓ No WHIMIS Control

11475 -1-1/4 Oz.

LIFTER® WIPES

General purpose cleaning wipes for the job site

At the end of the job, clean off your hands, tools, machinery, and more with Lifter® Wipes. With a smooth side for gentle cleaning and a rough side for hard-to-clean areas, Lifter® Wipes are the only wipes you need. They are easy to use; simply use the wipe and throw it away - no residue left behind, and no drying necessary!

Green Benefits

- ✓ HMIS Health Code of 1
- ✓ Not an OSHA Hazard
- ✓ No SARA 313 Filing Required
- ✓ No WHIMIS Control
- ✓ No CA Prop 65 Warning

72405 -70 Sheet Count Bucket

PLUMBSET®

Professional wax bowl ring

Installing a toilet is simple and professional with LA-CO's Wax Bowl Rings. They are easy to install and form a water-tight seal. Wax Bowl Rings are available as ring only or ring with plastic flange.

Green Benefits

- ✓ HMIS Health Code of 1
- ✓ Not an OSHA Hazard
- ✓ No SARA 313 Filing Required
- ✓ No WHIMIS Control
- ✓ Low VOC

59010 -No Flange

59011 -With Polyethylene Flange

SURE CHECK®

All-temperature leak detector

Specially formulated to work within a broad temperature range, sure-chek® Leak Detector can be used on CSST systems in many climates. It doesn't contain chlorides, so it won't damage metal pipe. Simply spray it on gas line connections and any leaks will be seen with sure-chek's highly visible fluorescent bubbles.

Green Benefits

- ✓ HMIS Health Code of 1
- ✓ Not an OSHA Hazard
