

Introducing a new line of specially formulated
Weld-On® Plumbing Cements

Making plumbing easier. Again.

With the introduction of WELD-ON® solvent cement in 1958, IPS Corporation changed the U.S. plumbing industry by making plastic pipe installation easy, timesaving and convenient. We've never stopped innovating, continually refining our products and manufacturing processes to assure outstanding, consistent quality. Our new line of Weld-On® Plumbing Cements is built on our 50+ year tradition of excellence to assure the reliable performance you've come to expect from the Weld-On® brand.

Weld-On Plumbing Cements are formulated for easier installation as well as improved installer safety and comfort. Low odor, low VOC Plumbing Cements are environmentally friendly, and friendly on the jobsite. Benefits include:

- **High Quality Performance** with excellent installation properties.
- **User Friendly.** Reduced fumes and odor for the comfort and well-being of pipe installers.
- **Environmentally Responsible. LEED® Compliant (Leadership in Energy and Environmental Design).** Credit can be gained through the use of Weld-On Low VOC products. This program, developed by the US Green Building Council, uses SCAQMD Rule 1168 as a benchmark to qualify one credit* toward LEED certification for green building.
- **Meet ASTM Standards** for solvent cements used for plastic pipe installation.†
- **NSF, UPC and/or CSA Listed.**

All low VOC
All the time

What makes Weld-On the first choice of professional plumbers?

It's not just what's in the can – it's what behind the can:

- Unquestionable quality – the result of years of engineering expertise and manufacturing excellence
- Non-stop innovation – including the industry's first complete all LOW VOC product line
- Unmatched customer support – From training and trouble-shooting to a live technical hotline

* LEED Green Building Rating System For New Construction & Major Renovations Version 2.2 (Indoor Environmental Air Quality: EQ Credit 4.1 Low-Emitting Materials - Adhesives & Sealants)

† Refer to individual solvent cement for specific ASTM Standards, NSF, UPC and/or CSA Listings.

Weld-On® Plumbing Cements

780™ PVC Regular-Bodied, Fast-Setting for Plumbing Applications

- Formulated for all classes and schedules with interference fit through 4" (110 mm) diameter (not for Schedule 80)
- Regular-bodied, fast-setting, low-VOC PVC cement
- Available in clear

Product Code	Contents	Product Description	Color	Model No.	UPC Barcode	ft ³ /Case	Units/Case	Lbs./Case
